## MARKTEK SIGN BUILDER TYPES

There are two types of builder tools at Marktek.

The **SIMPLE BUILDER** is used to make simple technical signs easily, without many editing options.

The **FULL BUILDER** is more advanced, allowing you to choose more customization options such as images, cutouts, icons, shapes and more. It is used for all other types of signs.

## Overview of the FULL BUILDER

The full Marktek sign builder version has three steps:

1. PRODUCT
2. CONTENTS
3. FIXING AND BUYING

Within these steps, you will be able to completely customize the sign you are creating. Once you finish customization in the current step, continue by clicking this button.

The screenshot displays the Marktek sign builder interface. The top navigation bar includes the Marktek logo, a 'DESIGN PAGE' link, and links for 'PRODUCTS', 'FAQ', 'BLOG', and 'CONTACTS'. A user is logged in, and the cart is empty (0.00 €). The main navigation menu lists various sign types: Engraved Plastic Signs, Printed Plastic Signs, Name Tags, Wooden Signs, Decals, Stickers, Vinyl Signs, Engraved COVID-19 Signs, Printed COVID-19 Signs, and Acrylic signs. The '1. PRODUCT' step is highlighted with a red box. The '2. CONTENTS' step is also highlighted with a red box. The '3. FIXING AND BUYING' step is highlighted with a red box. The '1. PRODUCT' section includes a 'Size' selector (300x200 mm), a 'Color' selector (Blue/White), a 'Shape' selector (Rectangle with r...), and a 'Rounded corners' slider (0 mm to 45 mm). The '2. CONTENTS' section includes a 'Border' checkbox (Placed) and a 'Line weight' slider (1 mm to 20 mm). The '3. FIXING AND BUYING' section includes a 'PRICE' display (29.94 €) and a 'SIGN SIZE' display (WIDTH (MM): 300 mm, HEIGHT (MM): 200 mm). A large blue sign preview is shown on the right. A red arrow points from the 'this button' text to the 'CONTENTS (2/3)' button at the bottom.

# Overview of the FULL BUILDER

(step 2/3)

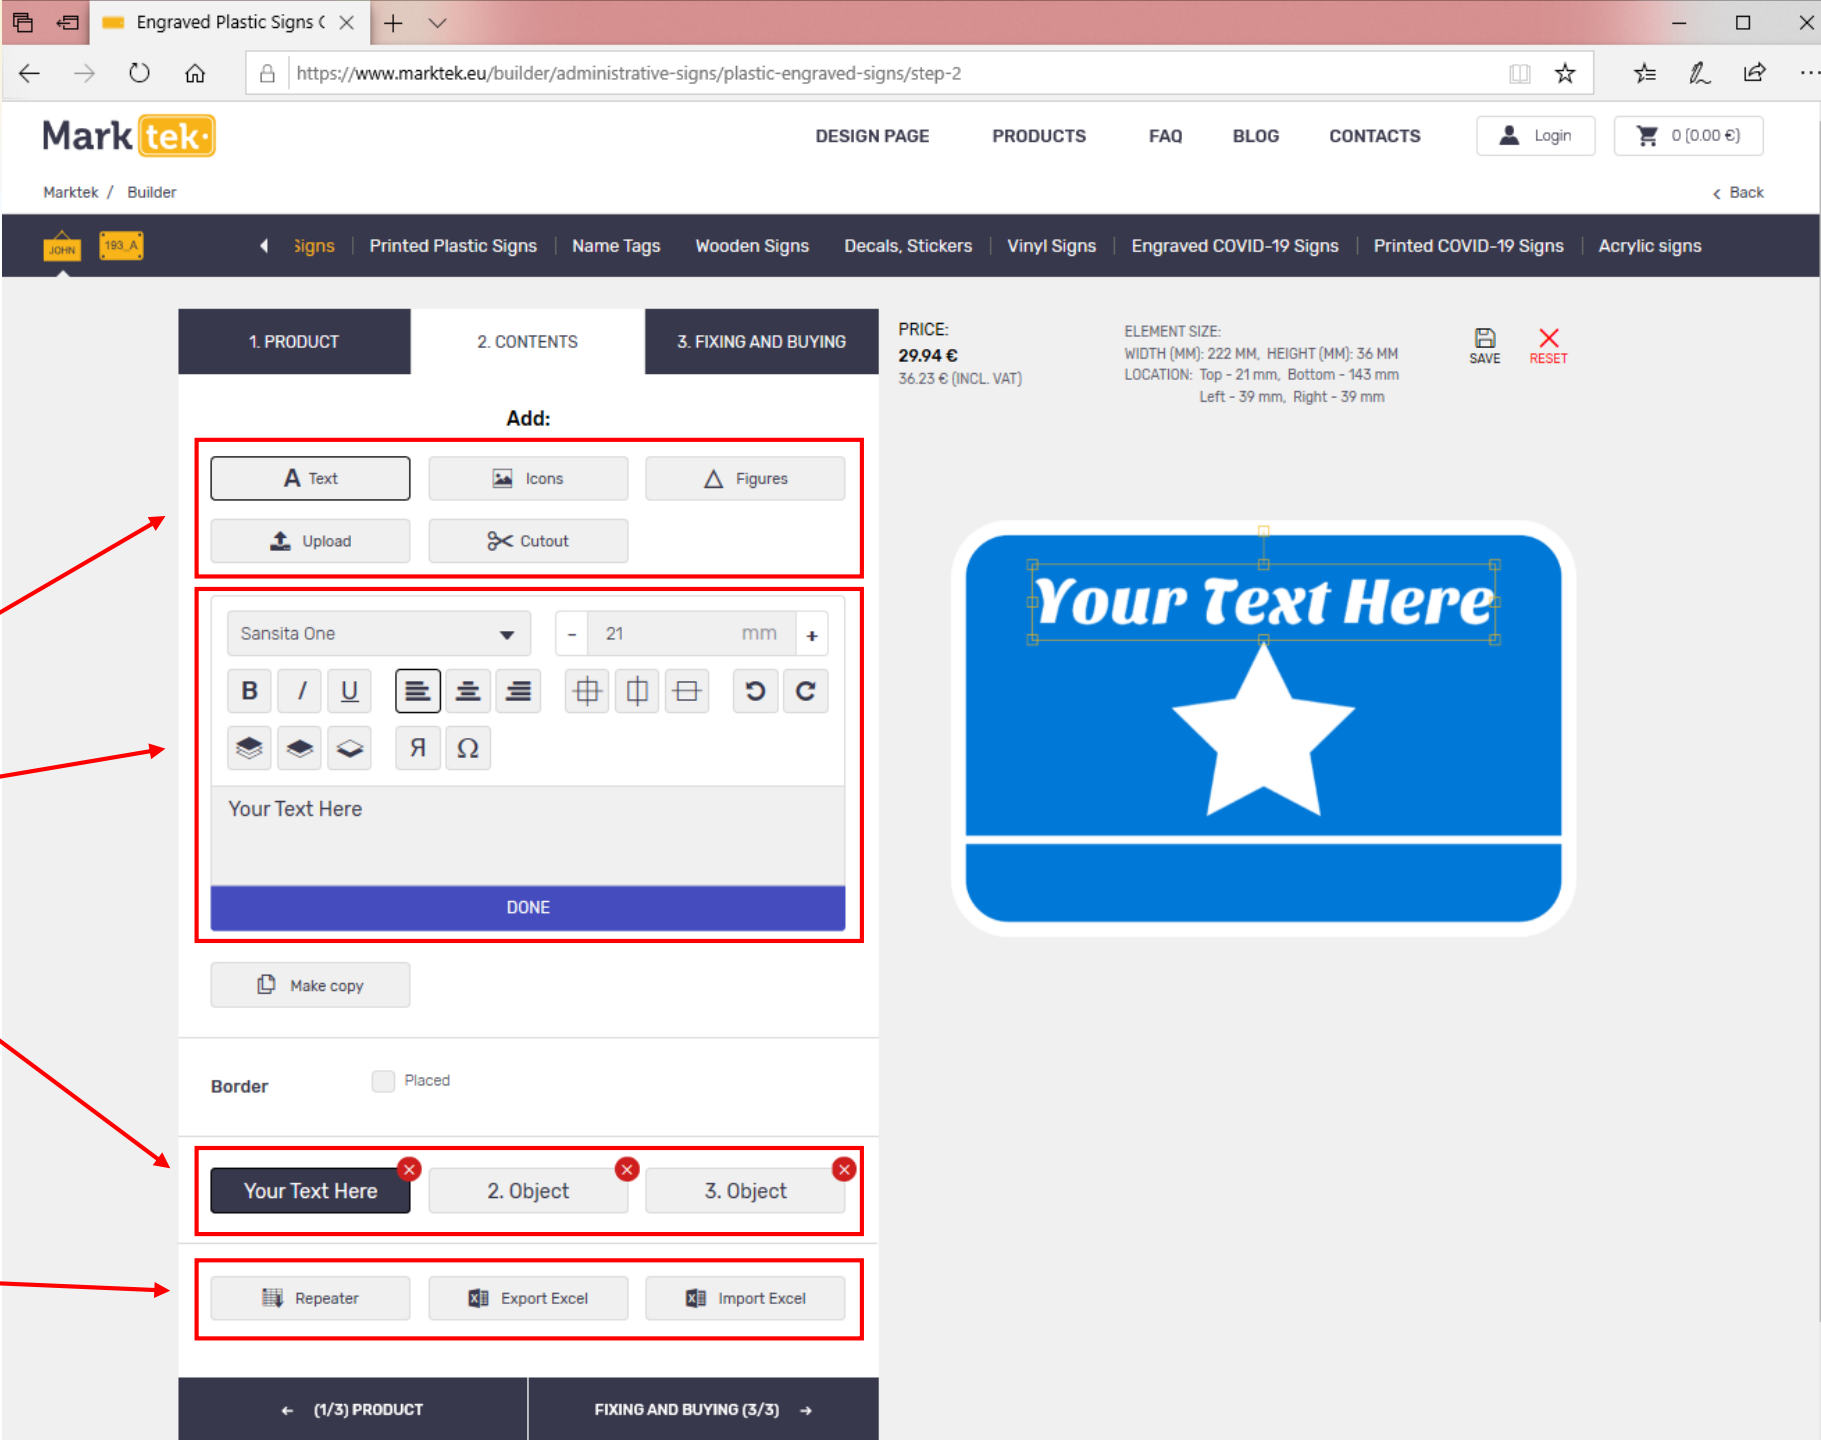

Personalize your sign by adding various contents in STEP2.

You can add various objects by selecting one of these options.

When adding text, you can customize its appearance in this area.

All the objects in your sign can be seen in this list. Click on each of them to edit, move or remove from the sign.

*Tip: if you want multiple identical signs with different texts, use the Repeater function to easily add different texts.*

## Overview of the FULL BUILDER

(step 3/3)

In STEP 3 you can select the mounting option for your sign. Available choices depend on the sign type and are listed here.

When applicable, you will have the option to choose the number of holes and their size here.

For some mounting types, you might be able to select the optional extras such as screws or other additional items.

Each change updates the price of the sign. You can always see it here.

When done – add your sign to the basket by clicking this button.
